

PART 2

QUESTIONING TEXTS

"a complex web of social relationships"

OBJECTIVE:

Students learn to use questions to guide their approach to, reading, and deeper analysis of texts. Students read and analyze informational texts.

ACTIVITIES

1- HOW SKILLFUL READERS APPROACH TEXTS

The teacher models how to use the Questioning Texts Tool to guide a process for close reading, and then pairs practice on a text they have read.

2- APPROACHING A NEW TEXT

Students listen to a new text and use the Questioning Texts Tool to guide their reading.

3- ANALYZING TEXT WITH TEXT-SPECIFIC QUESTIONS

The teacher guides the class through an analysis of the text using the Analyzing Details Tool.

4- POSING TEXT-SPECIFIC QUESTIONS

Students develop their own text-specific questions with which to analyze the text.

5- INDEPENDENT WRITING ACTIVITY

Students write 1-3 sentences explaining their analysis of the text and list supporting textual details.

ESTIMATED TIME: 3 days

MATERIALS:

Texts #1-5
Questioning Texts Tool
Analyzing Details Tool
Reading Closely Checklist
Guiding Questions Handout

ALIGNMENT TO CCSS

TARGETED STANDARD(S): RI.6.1 RI.6.2

RI.6.1: Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.

RI.6.2: Determine a central idea of a text and how it is conveyed through particular details; provide a summary of the text distinct from personal opinions or judgments.

SUPPORTING STANDARD(S): RI.6.4

RI.6.4: Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings.

ACTIVITY 1: HOW SKILLFUL READERS APPROACH TEXTS

The teacher models how to use the Questioning Texts Tool to guide a process for close reading, and then pairs practice on a text they have read.

QUESTIONING TEXTS TOOL

The **QUESTIONING TEXTS TOOL** supports students in a process for close reading. The tool prompts students to record and organize basic information about a text and to focus on their reading purposes. It provides a place for recording guiding questions to help them read closely for details and text-specific questions they have come to in their reading.

INSTRUCTIONAL NOTES

MODEL THE TOOL

Begin by modeling the Questioning Texts Tool, using Text #2:

- Think-aloud and talk through what you record in each Approaching the Text box.
- Select one or two questions to focus on from the Guiding Questions Handout.
- Re-read through the text, searching for details related to your guiding question. Model marking and annotating the text.
- Frame a new, text-specific question that the guiding question draws out of the passage.

TOOL PRACTICE IN PAIRS

- Student pairs continue examining Text #2 with the Questioning Text Tool.
- Have student pairs use a *different* guiding question as a lens for examination and come up with related text-specific questions.
- The key skill to work on is having students frame a good, text-specific question that emerges after students have used the guiding question to identify important information in the text.

ACTIVITY 2: APPROACHING A NEW TEXT

Students listen to a new text and use the Questioning Texts Tool to guide their reading.

INSTRUCTIONAL NOTES

INTRODUCE AND READ TEXT #5 ALOUD

Text #5 is a related but more challenging text. Provide minimal context about the passage before students encounter it. First have them listen to a reading of the text, asking them to concentrate on the author's message, tone, and use of language.

TEXTUAL NOTES

Text #5 is from the Wolves & Moose of Isle Royale website, a site that presents information from five decades of studying wolves on a wilderness island in Lake Superior. This text (which is the first part of the "All About Wolves" overview, the second part of which is used for Text #7) presents a description/explanation of the family and pack behavior of the Isle Royale wolves, based on observations of scientists who have studied them. It is somewhat conversational in tone, with short paragraphs, and [at 990L] should be accessible and interesting to all students as an example of science-based explanatory text. Students should work through the text, breaking it into chunks for close reading. Make sure they attend to the information about wolf pups that is presented early in the passage (and that will be important later in reading Text #8).

STUDENTS USE THE QUESTIONING TEXTS TOOL

- Students independently complete a Questioning Texts Tool – but do not yet record a text-specific question in the last row.
- Provide the guiding questions students will use, or have them select questions from the handout
- Emphasize questions related to language use and meaning, having students pay attention to and highlight words and phrases that are critical for understanding the passage and may also be less familiar to them.
- Focus on academic vocabulary – and its relationship to textual meaning.

READ TEXT #5 IN PAIRS

- Students look for details related to their guiding question.
- Students work in pairs to come up with text-specific questions to put in the final row of the Questioning Texts Tool.
- Students share their text-specific questions with the class, discussing and refining them as a class.

MODEL TEXT QUESTIONING SEQUENCE

Guiding Question(s):

1- What information/ideas are presented at the beginning of the text?

Text-based Question(s):

1- In the first three paragraphs of the Observations, what important details do we learn about Isle Royale wolf pups in their first year of life?

ACTIVITY 3: ANALYZING TEXT WITH TEXT-SPECIFIC QUESTIONS

The teacher guides the class through an analysis of the text using the Analyzing Details Tool.

ANALYZING DETAILS TOOL

The **ANALYZING DETAILS TOOL** also supports students in a process for close reading. The tool begins with a place to record their self-generated (or teacher-provided) text-specific question that they have come to through a guiding question. The tool prompts students to re-read the text marking and annotating details related to their question. Students then review their details and select those most relevant to their question. Students then analyze and make connections among those details to answer their question and deepen their understanding.

INSTRUCTIONAL NOTES

MODEL THE TOOL

- Guide the class through the tool identifying your reading purpose and using a text-specific question that emerged from class discussion. The tool can also be used with guiding questions or with text-specific questions you provide to students.
- Read and annotate the text actively, marking, highlighting, or flagging details that are related to the reading purpose and question.
- Review the details you have marked, looking for “key” details, words, and phrases that relate to your reading purpose and question, and that convey or support a central idea.
- Record 3 of these key details/phrases from the text in the “Selecting Details” section of the tool, indicating the source/location in the “reference” section.
- Analyze each detail and record your thinking.
- Connect the details by writing a sentence based on your analysis.
- Have students all fill in their own tool with the information developed as a class. This allows students to get a feel for using the tool and provides them with analysis and models in their personal notebooks.

TEXTUAL NOTES

Students can be given any of the paragraph sets that follow to read for details about such topics as alpha wolf behavior, wolves’ movement through their territories, wolf communication, comparisons to humans, etc.

MODEL TEXT QUESTIONING SEQUENCE

Guiding Question(s):
What do I learn about the topic as I read?
How do the ideas relate to what I already know?

Text-based Question(s):
In paragraphs 7-10, what do we learn about the behavior of “alphas”?
How does what I learn about “alphas” relate to what I’ve read/found in the other texts of the unit?

ACTIVITY 4: POSING TEXT-DEPENDENT QUESTIONS

Students develop their own text-specific questions with which to analyze the text.

INSTRUCTIONAL NOTES

STUDENTS USE THE ANALYZING DETAILS TOOL

- Students begin by confirming or revising their text-specific question at the bottom of the Questioning Texts Tool for Text #5. (This might be done in small groups.)
⇒ Some questions may be literal –scaffold students’ efforts to pose a question that causes them to re-examine textual details and discover something new about the text.
- Students transfer their question to the Analyzing Details Tool.
- Students annotate their texts by highlighting/marking all the details they feel are relevant to their question.
- Students select three details to analyze, copying them and referencing them in their tool.
- Students analyze the details, recording their thinking.
- Students connect the details, writing a sentence or two explaining their thinking.
- Students share their findings in a group discussion, using their tools to guide their conversations, and reflect as a group on their process of reading closely, using the Reading Closely Checklist as a framework for reflection.

MODEL TEXT QUESTIONING SEQUENCE

Guiding Question(s):

1- How are the details I find related in ways that build ideas and themes?

Text-based Question(s):

1- What details in “All About Wolves” suggest ways in which wolves and humans are similar?
What details suggest ways in which wolf behavior and human behavior are different?

ACTIVITY 5: INDEPENDENT WRITING

Students write 1-3 sentences explaining their analysis of the text and list supporting textual details.

INSTRUCTIONAL NOTES

In Part 4 of the unit, students will be developing and practicing the skills of writing a detail-based explanation of a text they have read. In this activity, introduce the idea of what a text-based explanation entails, possibly modeling one for Text #2. Ask students to work from their Analyzing Details Tool completed in Activity 4 and to write several clear, coherent, and complete sentences that explain something from their analysis of Text #5, making sure to reference key details they have identified. Connect this writing activity to skills students have been working on with their earlier paraphrasing activities.

ASSESSMENT OPPORTUNITIES

At the end of Part 2, students will have:

- Completed a Questioning Texts Tool for Text #2
- Completed a Questioning Texts Tool for Text #5
- Annotated their texts to highlight details related to their text questioning
- Completed an Analyzing Texts Tool for Text #5 both as a class and independently
- Written an explanation of their analysis of the text, including supporting details
- Engaged in group and class discussions

The primary focus of evaluation at this stage should be on student ability to use questioning to focus their annotation and selection of details. Examine student Questioning Texts Tool to evaluate the formation of their text-specific questions and their relationship to the guiding questions. Examine their annotated texts and Analyzing Details Tool to evaluate the relevance of their selected details and their recorded thinking and connections. Evaluate the tools for evidence of students' reading and thinking; examine the short written explanations for their developing writing skills, paying attention to use of evidence and to word choice, punctuation, and grammar.
