**Common Core Grade 6 Standard (RI.6.3):** Analyze in detail how a key individual, event or idea is introduced, illustrated and elaborated in a text (e.g., through examples or anecdotes).

**GRADE LEVEL ACADEMIC DEMAND**  
*Analyze Cause/Effect among Details of a Key Text Element*

**Linguistic Demands:** The following examples are in English but may vary based on the language of instruction. In the first three levels (entering, emerging and transitioning), students can approach these linguistic demands in the new and/or home language.

- Identify words and phrases (e.g., nouns and associated pronouns) that appear throughout the text to analyze a key individual, event, or idea in a text.
- Identify words that signal chronology or sequence (e.g., as, while).
- Use words that signal cause and effect (e.g., though, while, but, because, so, as a result).

**Example to Address the Linguistic Demands**

Text Excerpt	Teacher Directions
<p><b>Amusia</b> is the technical term for <b>tone deafness</b>. A good singing voice is not necessarily <u>the result</u> of the <b>ability to hear tones</b> accurately. <i>There has been</i> some intriguing research on this subject. <u>For instance</u>, new brain imaging techniques can measure the density of the white matter, consisting of nerve fibers that provide paths between the right frontal lobe and the right temporal lobe. The right frontal lobe is where higher thinking takes place. In <b>tone deaf people (amusics)</b> the white matter is thinner. <u>As a result</u> there is a weaker connection between the lobes. Findings <u>also</u> indicate the thinner the white matter, the worse the <b>tone deafness</b>. <u>According to</u> researchers from Harvard Medical School, 5 percent of the US population are <b>amusics</b>. Some reasons can be a general indifference to singing or an immunity to embarrassment. <b>Tone deafness</b> doesn't mean hard of hearing. <u>That is why</u> a <b>tone deaf person</b> can still hear someone whisper in a room.</p> <p>Schekel, L. (2011). <i>Ask your science teacher. Answers to everyday questions</i>. CreateSpace Independent Publishing Platform.</p>	<p>In a mini lesson and small group or whole class conversations, model how to analyze how an idea is introduced, illustrated and elaborated:</p> <ul style="list-style-type: none"> <li>• Identify words and phrases (<b>bold</b>) that appear throughout the text to analyze a key individual, event or idea (e.g., <b>amusia</b>, <b>tone deafness</b>, <b>ability to hear</b>, <b>amusics</b>).</li> <li>• Identify words (<i>italics</i>) that signal chronology or sequence (e.g., <i>there has been</i>).</li> <li>• Identify/use words (<u>underline</u>) that introduce details or examples (e.g., <u>for instance</u>, <u>also</u>, <u>according to</u>) to describe the ideas found in the text.</li> <li>• Identify words (<u>wavy underline</u>) that signal cause and effect (e.g., <u>as a result</u>, <u>that is why</u>).</li> </ul>
